WHO ARE MILLENNIUM POINT?

Opened in 2001, Millennium Point is the largest landmark millennium project in the UK, outside of London.

Inside, it is home to unique event spaces including a 354-capacity auditorium, flexible workspaces, meeting rooms and offices, and tenants, including Thinktank and Birmingham City University (BCU).

Situated opposite the new HS2 Curzon Street Station, Millennium Point champions and facilitates meetings and partnerships between businesses, educators and the next generation of industry leaders across the region

We're owned by the Millennium Point Charitable Trust with profits from our commercial activity being invested in projects, events and initiatives which support the growth of science, technology, engineering, and maths (STEM) in Birmingham and the wider region.

As of 2024, the Trust has provided in excess of £40 million to support STEM education and careers in the area. We are grateful to our clients and customers for helping us to achieve this.
